## June Member News

## Working Bee, Saturday, 15th June 2-4pm

Join the winter workout in the garden

Tasks for the day

A load of loam has been delivered. We hope to fill up the pot holes in the paths and grass area around the table.

We need some more rakes so If you one please bring it with you.

Clearing and sorting the contents of the greenhouse

Filling 2 of the donated pots with rosemary and Flanders poppy seedlings.

Weeding

Last time a team transformed the berry patch but there is still a small patch that needs work Also the while the herb verge is looking good some weeds are swamping plants.

## **Mid-winter Celebration 14th July**

We decided to combine this with a shorter working bee.

The fire brazier will be lit to keep us warm and for toasting marshmallows

Pumpkin soup and delicious bread is on the menu.

Lets light up the garden. Make this date on your calendar. Final details will follow later.

## Sharp spade

David has put this near the compost heaps to make it easier to chop large stems.

If you think anything is too large to go through the mower please deposit them in the council rubbish bin.
