RESIDENTS' NEWSLETTER

September 1999

From the President

Recent months have seen much activity in Taroona and it is a pleasure to comment on several issues:

- ◆ The Apex Club of Taroona is currently fine tuning a Development Plan for Taroona Park (otherwise known as Apex Park). In due course a public meeting will be held and input from residents is invited.
- ◆ The Kingborough Council Strategic Plan (for 1999-2004) is available for public comment at the Council Offices in Kingston.
- ◆ Taroona Neighbourhood Watch has approached the Association suggesting that pooling resources in future should occur. Your Committee is receptive to the idea and in due course the issue will be discussed at a General Meeting.
- ◆ The resealing of a portion of the Channel highway has been completed – a job well done.
- ◆ The Taroona Environmental Network (TEN) recently applied for more funding to assist in continuing their good work in Taroona.
- ◆ The Association is supportive of local businesses, service providers and clubs and will be making avail-

able space for publicity in this and subsequent newsletters. Please contact the Association if you have a story to tell or a business to publicise.

- ◆ The recent event of most interest to residents, however, should be the major upgrade currently underway at the Shopping Centre by Ralph Caccavo and his band of workers.

There are a number of other services scattered through the suburb. Please support the "local bloke" otherwise he (or she) may disappear from the scene!

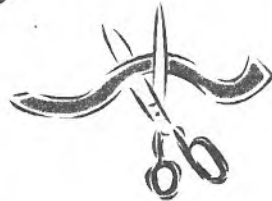

GENERAL MEETING – 22 JULY 1999

An audience of almost 30 residents listened with interest when Robin Fox, the new Taroom High School Principal, outlined his ideas on education beyond 2000 at the General Meeting in the Taroom Community Hall. He firmly believes that today's schools need to be in touch with the community. He intends to hold Open Days or invite parents and local residents for afternoon teas which will provide the opportunity to look round the school to see for themselves students and teachers 'at work' at Taroom High.

During "general business" at the meeting lively discussion occurred on a range of topics currently relevant to Taroom – a number of which will be followed up by your Committee.

URBAN SKYLINES AND HILLFACES PROJECT

An Urban Skylines and Hillfaces Committee has been established by the Minister for Primary Industries, Water and Environment to prepare planning guidelines for protection of skylines and hillfaces. The work done so far by the Committee and a GIS method of determining visual prominence were presented to a series of round table meetings in Devonport, Launceston and Hobart (Glenorchy) during July. Committee member, John Hayes, is the coordinator of the project and can be contacted on 6233 2104 (after 15 Sept.)
